Residency

Jan 2008 – Jan 2012: went to Ireland to expand the orthopaedic experience. Worked in five different hospitals: Drogheda – Navan, Kilcreene Orthopaedic Hospital, Letterkenny General Hospital, Cork University Hospital and Cappagh National Orthopaedic Hospital from which I had finished the upper limb fellowship.

July 2002 – June 2007: Residency programme in Trauma and Orthopaedic Surgery at the Jordan University Hospital. The department has six consultants with different subspecialties.

It is a full residency programme consists of five years:

Each year is followed by a comprehensive exam (written and clinical).

As a resident in Jordan University Hospital, my annual examination was "A" all through the residency years.

The chief resident for the Orthopaedic department from July 2006 to June 2007.

July 2001 – July 2002: Internship (Al-Zarka Government Hospital)
