

Jordan University Hospital
Scientific and Pharmaceutical Research Office
Year 2023 report

Introduction

The Clinical Research Site at Jordan University Hospital (JUH) is located in the heart of Jordan in the Capital, Amman. The clinical site was established in 2014 to meet the growing global need for finding better health solutions for patients.

Our Strength points lie behind the presence of a tertiary referral hospital in the University that is required to establish the clinical site inside, exceptional qualifications, skills, and knowledge of the medical teams in the University, and the presence of the necessary infrastructure to conduct the trials.

The clinical site at JUH is a highly qualified pioneer center for clinical and pharmaceutical research not only in Jordan but also in the region. The Clinical Site is accredited by the Jordan Food and Drug Administration (JFDA), and Joint Commission International Accreditation (JCIA). In addition, all clinical trials at JUH are regulated by the locally and internationally accepted GCP guidelines. With the successful finalization of many international clinical studies (phase I-IV), our clinical team proved its commitment to providing high-quality services that meet international standards.

Strategic Plan for 2024

- Establishment of an Independent Pharmaceutical Research Center.
- Expanding and Enrolling different specialties in clinical trials.
- Training of medical teams on the conduction of clinical trials.
- Enroll more patients in clinical trials to increase diagnostic and therapeutic benefits.
- Facilitate the conduction of clinical trials at Jordan University Hospital.
- Maximize utilizing the output of the scientific research conducted at Jordan University Hospital.

Current Scientific and Clinical Research at JUH

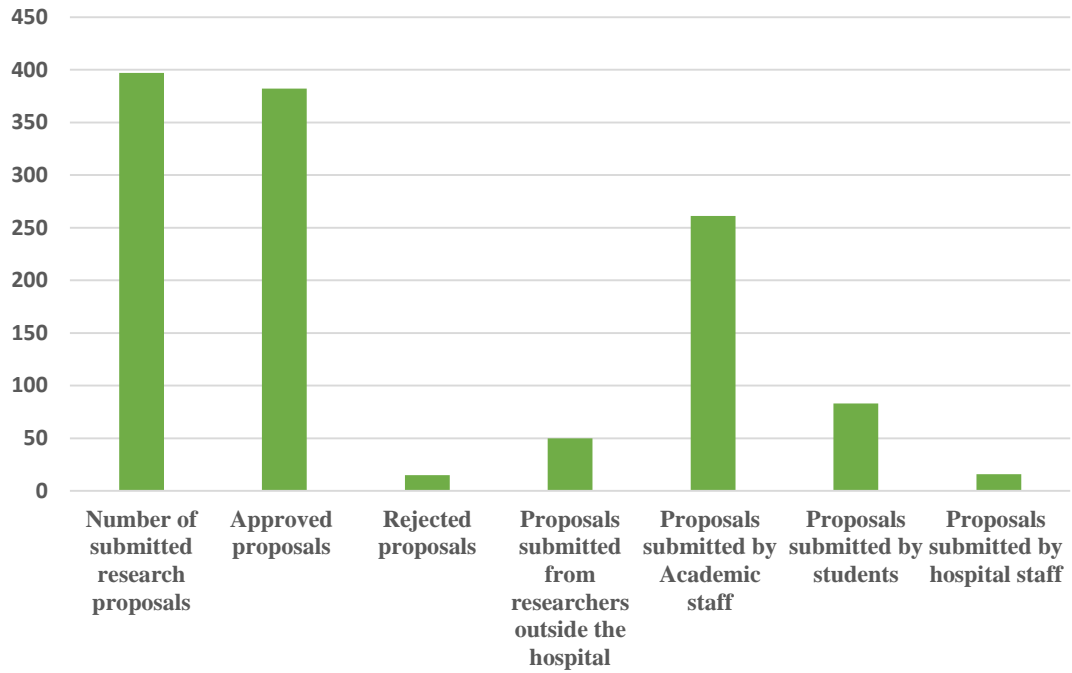

1- Number of online submitted research proposals from 1/1/2023 to 30/12/2023

Number of submitted research proposals	397
Approved proposals	382
Rejected proposals	15
Proposals submitted from researchers outside the hospital	50
Proposals submitted by Academic staff	261
Proposals submitted by students	83
Proposals submitted by hospital staff	16

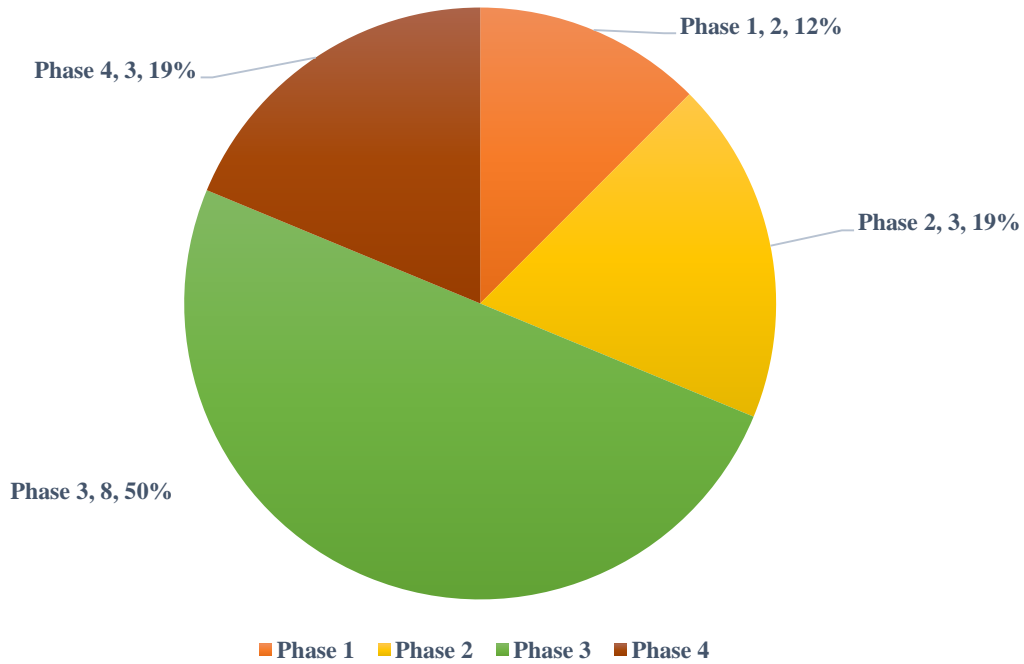

2- Number of clinical trials ongoing in the hospital

Year	2023	2022
Current number	16	11
Feasibility studies	26	-----

Number of Sumbitted Research Proposals in 2023

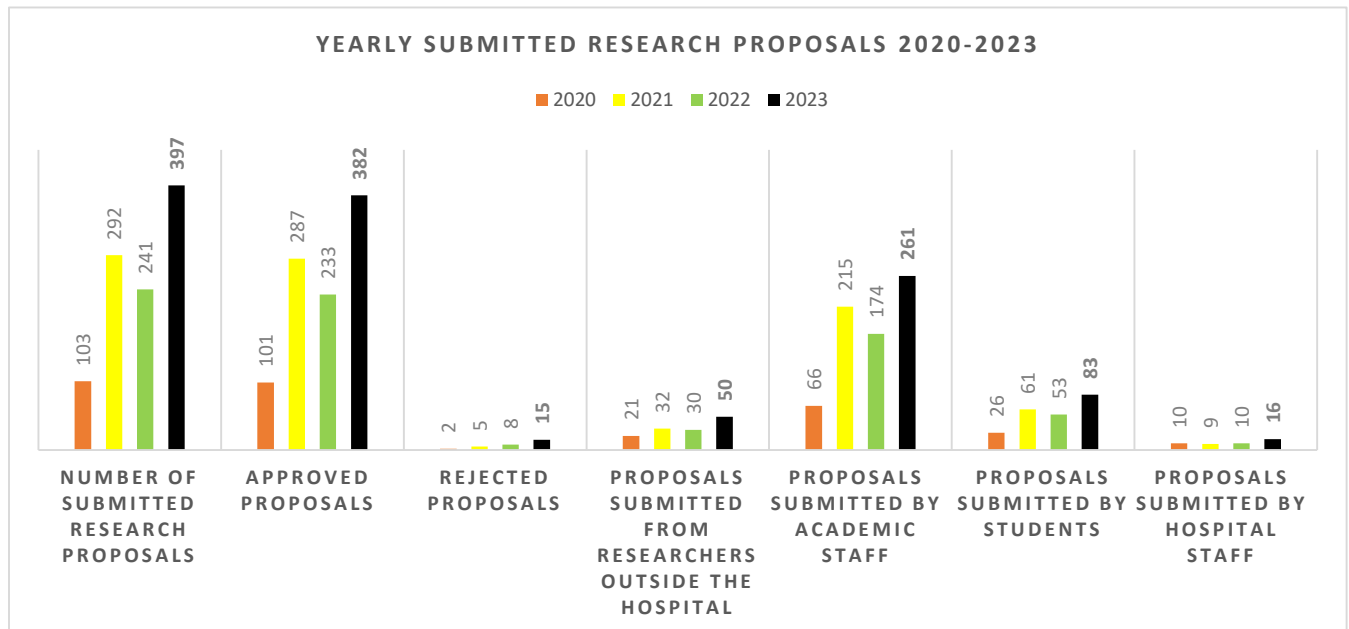

Distribution of Clinical trial phases at JUH in 2023

Submitted research proposals (2020-2023)

	2020	2021	2022	2023
Number of submitted research proposals	103	292	241	397
Approved proposals	101	287	233	382
Rejected proposals	2	5	8	15
Proposals submitted from researchers outside the hospital	21	32	30	50
Proposals submitted by Academic staff	66	215	174	261
Proposals submitted by students	26	61	53	83
Proposals submitted by hospital staff	10	9	10	16

Ongoing Clinical trials at JUH for 2023

	Clinical trial name	Primary investigator	Sponsor	Status
Oncology				
1	Randomized, open-label, phase2,Multi-center to evaluate safety and Efficacy of Dasatinib50mg in first-line treatment of early chronic phase myeloid leukemia	Professor Doctor Abdullah AlAbbadi	Hikma	Ongoing
2	A randomised, single-blind, placebo-controlled, phase 1, single-ascending and multiple-dose study in adult subjects with alpha/beta-thalassaemia and very low- and low-risk myelodysplastic syndrome to investigate the safety, tolerability, pharmacokinetic, and pharmacodynamic response of SLN124(SILENCE)	Professor Doctor Abdullah AlAbbadi	SLN Therapeutics	Ongoing
3	A Phase 3, Multicenter, Randomized, Double-Blinded, Placebo-Controlled Trial to Evaluate the Efficacy and the Safety of Efgartigimod (ARGX-113) PH20 Subcutaneous in Adult Patients with Primary Immune Thrombocytopenia	Professor Doctor Abdullah AlAbbadi	Argenx Pharmaceuticals	Closed
4	Multi-Center, Retropective, Observational Study of Multiple Myeloma in Real Practice within Gulf Cooperation Council Countries, Egypt and Jordan	Professor Doctor Abdullah AlAbbadi	Janssen	Closed
5	A Multicenter,Observational,Post-Authorization Safety Study of Tromax (Rituximab bio similar) in Non-Hodgkin Lymphoma and Chronic Lymphocytic Leukemia patients in Jordan”(TROMAX)	Professor Doctor Abdullah AlAbbadi	MS Pharma	Closed
6	A phase 1 Dose Escalation Study of NMS-03305293 in Adult Patients with Selected Advanced/Metastatic Solid Tumors.	Professor Doctor Nadir Bsoul	Nerviano Medical Sciences	Closed
Gastroenterology				
7	A Phase 2b/3, Randomized, Double-blind, Placebo-controlled, Parallel-group, Multicenter Protocol to Evaluate the Efficacy and Safety of Guselkumab in Participants with Moderately to Severely Active Ulcerative Colitis.(QUASAR)	Professor Doctor Yaser Rayyan	JANSSEN	Ongoing
8	A Phase 2b Randomized, Double-blind, Active-and Placebo-controlled, Parallel-group, Multicenter Study to Evaluate the Efficacy and Safety of Induction and Maintenance Combination Therapy with Guselkumab and Golimumab in Participants with Moderately to Severely Active Ulcerative Colitis.(DUET-UC)	Professor Doctor Yaser Rayyan	JANSSEN	Ongoing
9	A Phase 3, Randomized, Placebo-controlled, Parallel-group, Multicenter Study to Evaluate the Efficacy and Safety of Guselkumab in Participants with Fistulizing, Perianal Crohn's Disease.(FUZION)	Professor Doctor Yaser Rayyan	JANSSEN	Ongoing
10	A Phase 2b Randomized, Double-blind, Active-and Placebo-controlled, Parallel-group,	Professor Doctor Yaser Rayyan	JANSSEN	Ongoing

	Multicenter Study to Evaluate the Efficacy and Safety of Induction and Maintenance Combination Therapy with Guselkumab and Golimumab in Participants with Moderately to Severely Active Crohn's Disease.(DUET-CRD)			
11	A Phase 3, Randomized, Double-blind, Placebo-controlled, Parallel-group, Multicenter Study to Evaluate the Efficacy and Safety of Guselkumab Subcutaneous Induction Therapy in Participants with Moderately to Severely Active Ulcerative Colitis.(ASTRO)	Professor Doctor Yaser Rayyan	JANSSEN	Ongoing
12	A Three-Arm, Randomized, Placebo-Controlled, Double-Blind Phase 3 Study to Evaluate the Safety and Efficacy of Once-Daily and Twice-Daily Dosing of Novel Hydrocortisone Acetate 90 mg Suppository Formulation Administered with the Sephure® Suppository Applicator in Subjects with Ulcerative Colitis of the Rectum	Professor Doctor Awni Abu-Sanineh	Criscot	Waiting contract approval
13	A Phase 3 Study to Evaluate the Efficacy and Safety of Guselkumab Subcutaneous Induction Therapy in Participants with Moderately to Severely Active Crohn's Disease.(GRAVITI)	Professor Doctor Yaser Rayyan	JANSSEN	Closed
Endocrinology				
14	A multi-center, cross-sectional chart review and survey to capture the Prevalence and clinical management of Atherosclerotic Cardiovascular diseases in patients with Type 2 diabetes across countries in the Middle East and Africa (PACT-MEA).	Dr. Hiba Abbasi	Novo Nordisk	Closed
Pediatrics				
15	A Phase 2/3, Open-label, Baseline-controlled, Multicenter, Long-term Study to Evaluate the Safety, Efficacy, and Pharmacokinetics of Vibegron in Pediatric Subjects 2 Years to <18 Years of Age with Neurogenic Detrusor Overactivity (NDO) on Clean Intermittent Catheterization (CIC).	Professor Doctor Raed Taher	Sumitomo Pharma	Ongoing
