Training

Feb.2006-Nov.2010

Cardiac surgery Resident in Heart Centre Leipzig, under the supervision of Prof. Mohr 5 years training in cardiac surgery including almost all aspects of cardiac surgery as Coronary Bypass surgery on and off pump, single and multiple valve surgery and combined advanced cardiac surgery, Advanced minimally invasive surgery, Endovascular and Hybrid surgery Transplant and Heart failure surgery.

Nov97 till July 2003:

General surgery resident at Jordan University of Science and Technology.

This Program is an Academic program of 5 years training, at the end of which the graduate is given a degree in high surgical specialty and we are eligible to sit for the Jordan and Arab Board, this academic degree is the highest to be given in Jordan. Each year involves daily teaching morning report and every other day surgical teaching activity; as morbidity and mortality, grand round and Journal club.

Our duties include out patient and in patient care, participation and assisting in major operations and doing minor operations under supervision of senior surgeons. We do night calls at central hospitals being the most senior staff, covered by consultants at home.

My rotation was at Princess Basma hospital; the central referral hospital in north of Jordan serving about one million people, it contains all specialties except for pediatrics and obg& gyn; it was a busy hospital especially in emergency and trauma. I also did 6 months rotation at princes Rahma hospital, which is the pediatric hospital in north of Jordan.

My Last year rotation was at King Abdulla University Hospital; a newly established 700 bed hospital equipped with the latest medical technology and specialties, built to be the university's main teaching hospital and a modern hospital both in the field of qualifications and equipments.

July96-may97

Internship training at al bashier hospital the capital public hospital in Jordan including:

3 months in General surgery

3 months in Internal Medicine

2 months in GYN & OBS

2 months in Pediatrics

1 month in Emergency Medicine

This entitles clerking patients, assisting in operations dealing with emergency and elective in and out patients

July97-oct97:

General practitioner at the Health center of Jordan University of Science and Technology
